The Be Be, from Love Being Woman

posted by red on June 4th, 09 in Awesome Sex Toys, Review, Vibrator

The Be Be is the brain child of two friends who were musing on vibrators one day as they walked along a beach. The idea, in a nutshell, was to make the ultimate woman's accessory. Something beautiful, something discreet, something designed to make a woman feel good – because feeling good makes you feel good about yourself. And you know, they've done it – the Be Be is ridiculously cute, pleasantly discreet and packs quite a whallop in terms of vibration power.

The Be Be is the perfect, battery accepting, ergonomically designed vibrator for those times you need something to work right away. Plus, it's packaging and design really make it appropriate as a first time vibrator, as it just looks....cute.

Overall, the Be Be is a charming toy, and one that I would whole heartedly recommend

In A Nutshell: A cute, ergonomic, stylish and discreet vibrator.

What's Awesome? Excellent/Great design, good amount of power
